Acute & Episodic Care Program

PROGRAM GOAL: To provide high quality acute care to FHN patients.

Stats:

In Q1, **3333 patients** were seen, and **4711 visits** were provided by the team under acute and episodic care.

- **87.2%** were in **office visits**
- **12.5%** were **phone visits**
- **0.4%** other (**email, home, or virtual visits**)
- **2** ER diversions

Asthma & COPD Program

PROGRAM GOAL: To improve the overall health & wellbeing of individuals with Asthma and COPD.

Stats:

In Q1, **124 patients** were seen, and **218 visits** were provided.

- **95.77%** of Asthma and COPD patients have a **spirometry confirmed diagnosis**
- **82.76%** of current smokers seen in the Asthma/COPD program have received a smoking cessation intervention. **smoking interventions not consistently documented on new spirometry form**
- **31.25%** of COPD patients have **received a yearly flu shot**
- **76.6%** of COPD patients have **received a pneumococcal vaccine**

Cancer Screening Program

PROGRAM GOAL: Cancer Screening program offers prevention and early detection of cervical, breast and colorectal cancer to eligible patients according to the Ontario Cancer Care screening guidelines.

Stats:

In Q1, **309 patients** were seen, and **320 visits** were provided.

- **60.5% (EMR) / 63% (SAR)** of FHN patients are **up to date with for cervical cancer screening.**
- **61.4% (EMR) / 63% (SAR)** of FHN patients are **up to date with for breast cancer screening.**
- **60.7% (EMR) / 68% (SAR)** of FHN patients are **up to date with for colorectal cancer screening.**

*Please note that SAR values are different from our EMR values; we are continuing to work on reconciling EMR data.

* Changes to the FIT testing process may negatively impact screening results over the next period. Completion time frame has changed from 6 months to 1 year.

Community Health Worker Program

PROGRAM GOAL: Support patients to navigate the healthcare system, coordinate between service providers, and empower patients to become their own strongest advocate.

Stats:

In Q1, **20 patients** were seen, **29 visits** were provided

- **75%** of patients were **rostered**
- **10%** of patients were **attached**, **15%** of patients were **unattached**
- **44.8%** of visits were in **office visits**
- **55.2%** of visits were **phone visits**

Diabetes Management Program

PROGRAM GOAL: Multidisciplinary team approach to education, intervention and clinical management for all community members with diabetes to reduce the burden of diabetes and prediabetes and improve the quality of life of those affected by diabetes.

Stats:

In Q1, **344 patients** were seen, and **501 visits** were provided.

- **98.75%** of patients with Type 1 or Type 2 diabetes had an **A1C** in the last year
- **90.41%** of patients with Type 1 or Type 2 diabetes had their **blood pressure** measured in the last six months
- **40.44%** of patients with Type 1 or Type 2 diabetes had a **validated foot screen** in the last year
- **53.61%** of patients with Type 1 or Type 2 diabetes had a **retinal exam** within the last two years
- **72.97%** of patients set a **SMART goal** within the last six months

Foot Care Program

PROGRAM GOAL: To screen for and treat diabetic foot conditions and high-risk patients in order to prevent or delay complications

Stats:

In Q1, **226 patients** were seen, and **333 visits** were provided.

- **91.46%** of patients with diabetes had a **60 second foot screen** within the last year
- **91.26%** of patients with **chronic problems have their conditions now under control** with regular clinic visits

Hypertension Management Program

PROGRAM GOAL: Assessment and monitoring of suspected or diagnosed hypertension using both in office and ambulatory blood pressure monitoring. Provide patients with hypertension ongoing monitoring, education and self-management skills. Provide screening for suspected hypertension with Ambulatory Blood Pressure Monitor to help in diagnosis of HTN.

Stats:

In Q1, **209 patients** were seen, and **615 visits** were provided.

- **71.01% of patients** in the program have **improved their blood pressure readings** to target after 3 months.
- **82.61% of patients** have set a **new lifestyle goal** after 3 months
- **19.4% of patients** with HTN who have a visit with an RD as part of their care plan

Health Promotion & Disease Prevention Program

Problem stopped as of 26/01/24.

Stats will be rolled into the associated programs.

INR Program

PROGRAM GOAL: To reduce the cost to the healthcare system by providing point of care INR testing and minimizing adverse events of warfarin therapy that cause harm and/or required hospitalizations.

Stats:

In Q1, **65 patients** were seen, and **351 visits** were provided

- **71.47%** of point of care INR tests given were in range
- **0** INR patients experienced a recent stroke event in Q1
- **0** INR patients experienced a major bleeding event in Q1; the SCFHT remains below their 2% target
- **2** INR patients eligible for a DOAC (Direct Oral Anticoagulant), **1** patient transitioned to DOAC

Lactation Consultation Program

PROGRAM GOAL: Provide individual patient sessions with expectant parents and mother/baby dyads for support, education, and strategies to establish, maintain, or continue exclusive breastfeeding until 6 months.

Stats:

In Q1, **31 patients** were seen, and **76 visits** were provided

- **69.57%** report increased confidence in feeding
- **0** Lactation education events in Q1
- **2** breastfeeding sessions with **21** couples attending.
- **1** Baby Stop event in Q1

Memory Clinic Program

PROGRAM GOAL: A multidisciplinary approach for early diagnosis, treatment and support of problems associated with memory loss. The FHT team members work collaboratively with physicians to provide comprehensive care for conditions involving memory loss.

Stats:

In Q1, **32 patients** were seen, and **5 clinics** were hosted

- **100%** of patients/caregivers surveyed in Q1 were **satisfied with the service**
- **100%** of patients surveyed in Q1 reported an **increased understanding** about their condition
- **70%** of patients **received a post-visit call** after 4 weeks
- **85.71%** of those contacted **understood their care plan recommendations**

Minor Ailments Program

PROGRAM GOAL: The Minor Ailments program will provide timely access to care for the treatment of self-limiting illnesses for individuals without a primary care provider.

Stats:

In Q1, **12 patients** were seen, and **15 visits** were provided

- **4** patient reported ER diversion

Nutritional Counselling Program

PROGRAM GOAL: Provide nutrition tools and education to help patient improve quality of life and decrease likelihood of developing a chronic disease or to help patients manage the nutritional component of dealing with a chronic disease to decrease possibility of adverse events. To improve lipid levels in patients with dyslipidemia to decrease risk of cardiovascular events.

Stats:

In Q1, **108 patients** were seen, and **178 visits** were provided

- **87.18%** of follow-up patients have **achieved** their most recent **SMART goal**
- **87.5%** of dyslipidemia patients have a documented **Framingham risk assessment**

Obesity Management Program

PROGRAM GOAL: To provide relevant education and resources to support the clinical management of obesity aimed at improving quality of life and reducing obesity related complications.

Stats:

In Q1, **24 patients** were seen, and **47 visits** were provided

- **83.33%** of patients with **SMART goals discussed and documented**
- **10%** of patients with an initial program visit **less than 4 weeks after the initial referral**
- **75%** of patients reporting **improved knowledge and confidence** in managing their obesity

Occupational Therapy Program

PROGRAM GOAL: To maintain or improve quality of life and function for patients experiencing limitations to their overall function. Assist community members to remain as safe and independent as possible in their community.

Stats:

In Q1, **34 patients** were seen, and **84 visits** were provided

- **100%** of OT assessments with completed Home Safety Assessment Form with recommendations
- **76.19%** of patients 65 or older have completed a falls assessment
- **70.8%** of patients who receive a follow up, report an improved understanding of their primary concern and ability to self-manage

Pharmacist Services Program

PROGRAM GOAL: Provide comprehensive medication review that involves assessing a patient's medications (prescription, non-prescription, supplements, traditional, and alternative medications) to determine if each medication is necessary, effective, safe and realistic for the patient to take. Communicate with the patient and primary care provider in identifying and helping to solve DTPs.

Stats:

In Q1, **136 patients** were seen, and **168 visits** were provided

- **92.11%** of identified drug therapy problems (DTP's) resolved within 1 month
- **91.8%** of patients received medication follow up contact within 7 days of discharge from the hospital
- **23** medication discrepancies identified during hospital discharge follow-up
- **14** drug navigation and **22** drug information requests addressed
- **10** medication reviews provided
- **67** medication updates provided
- **7** medication reconciliations provided
